Detail-oriented Salesforce Developer with a strong Computer Science foundation and practical expertise in the Salesforce Ecosystem (Apex, LWC, Flow). Passionate about building complex cloud architectures, integrating Generative AI tools, and developing clean, efficient code for enterprise applications and end-users.

EDUCATION

Gyan Ganga Institute of Technology & Sciences

Jabalpur, MP

B.Tech in Computer Science & Engineering; CGPA: 7.28/10.0

2022 – 2026

- **Relevant Coursework:** Artificial Intelligence, Database Management Systems, Cloud Computing, Data Structures & Algorithms, Object-Oriented Programming.

TECHNICAL SKILLS

Salesforce Ecosystem: Apex, Lightning Web Components (LWC), Flow Automation, SOQL, Salesforce AI

Programming Languages: Python 3, Java, JavaScript, C++, SQL

Development Tools: Git, GitHub, Agile, API Integration, VS Code

Cloud & Generative AI: Prompt Engineering, Google Cloud Platform (Vertex AI), Large Language Models (LLMs)

EXPERIENCE

SmartBridge (LastMile Program)

Remote

Salesforce AI Agent Developer (Virtual Internship)

Late 2025

- Developed and implemented automated business logic using Salesforce AI and Apex, ensuring complex backend processes were optimized for cross-functional teams.
- Architected clear, structured Flow automation implementations, focusing on optimizing enterprise-level processes and improving system efficiency.

PROJECTS

🔗 Event Management System | Salesforce, LWC, Apex, SOQL

- Built a scalable event management application, implementing SOQL queries and custom Apex controllers.
- Established strict data integrity standards and validation rules for Custom Objects to maintain an error-free, secure registration environment.

🔗 SITAR AI | Node.js, MongoDB, Generative AI, JavaScript

- Developed a role-based full-stack educational portal utilizing Node.js and MongoDB to securely manage user authentication and document storage via GridFS.
- Integrated Google Generative AI (Gemini) to dynamically convert academic queries into interactive presentations, featuring synchronized client-side text-to-speech narration.

CERTIFICATIONS & ACHIEVEMENTS

Advanced Prompt Engineering – Google Cloud Skills Boost

Salesforce AI Agent Developer – SmartBridge (LastMile Program)

Java Programming Fundamentals – Oracle Academy

CCNA – CISCO Networking Academy

LEADERSHIP, EXTRACURRICULARS & INTERESTS

- **Dance Club Lead, "Fusion Beats":** Managed a collegiate team of 20+ members, coordinating rehearsals, executing event logistics, and managing communications for campus-wide performances.
- **Collegiate Athlete (Volleyball):** Represented the institute in competitive tournaments, showcasing strong teamwork, adaptability, and discipline under pressure.
- **Interests:** Reading novels, creative writing, and canine behavioral training.
